We  
love our Kessler Crane®. This is a Christmas commercial we produced  
using the crane exclusivley. It was received well in the region.

time use of the crane, awesome design and functionality! I've modified mine to use lock pins instead of nuts and bolts making set-up and take down less than 3 minutes for one person!

I love the crane! I was the Director of Photography on a music video shoot for the band "Greyscale". We produced a video of their song "Weep".

Buying the Kessler Crane® was the best investment I've ever made! When preparing to shoot my new short film, Flip, I knew I needed a crane that could provide: a variety of heights, easy portability, the option to attach a fluid head and of course, it had to be sturdy. For the price of renting one of those "Major Name" cranes for one day, I was the proud owner of my own 8 foot Kessler Crane®!

Carleton Torpin, Director of Flip

"It was unbelievably simple. Our Kessler Crane arrived, and after a 30 minute "first time" set-up, we were off and running. Its all about the end result, and our Kessler Crane exceeded our expectations."

Robby Roberts

President
